

# Plug in for promising growth

Computer Solutions consists of a professional team with a proven track record in implementing custom-made BI/CPM solutions. Our services range from analysis, over design and development, to implementation. We also assist our customers in managing their IT/BI organization. On demand, we take end-to-end project responsibility. Our customer's base is active within a variety of markets and mainly located in the Flemish and Brussels region.

**We have challenging vacancies for m/f:**

- **BI Project Manager**  
(at least 5 years of experience in BI)
- **BI Architect/Designer**  
(at least 3 years of experience in BI)

**As a future colleague you are:**

- a customer-focused and entrepreneurial teamplayer with eagerness to learn
- seeing the challenge of working for different customers within different environments
- ready to (further) extend your BI experience
- experienced in one or more BI-related domains
- fluent in English and either Dutch or French.

**Our offer:**

- interesting projects within a motivated team
- a dynamic environment with lots of personal responsibilities
- the opportunity to stay up to date with tools like Oracle, Microsoft, Cognos, Business Object, Informatica, SAS, etc.
- professional training and a competitive compensation.

**Interested?**
